Marco Gallinat – our New Team Member

In line with our continuous expansion of the Metal Deco Segment, we are pleased to inform you, that on second of February 2009 Marco Gallinat has started his Job as additional Customer Technical Service Engineer and with that became the newest Member in the Swiss Metal Deco team.

Marco's background is 25 years experience in the Flexographic/Gravure Printing Industry. He is now undergoing a variety of training sessions in our specific Segment and soon he will be ready to Support our Customers with any issue they may have. You can communicate with Marco in German and/or in English.

Marco's coordinates: marco.gallinat@sunchemical.com

New Product Labels – first Experiences

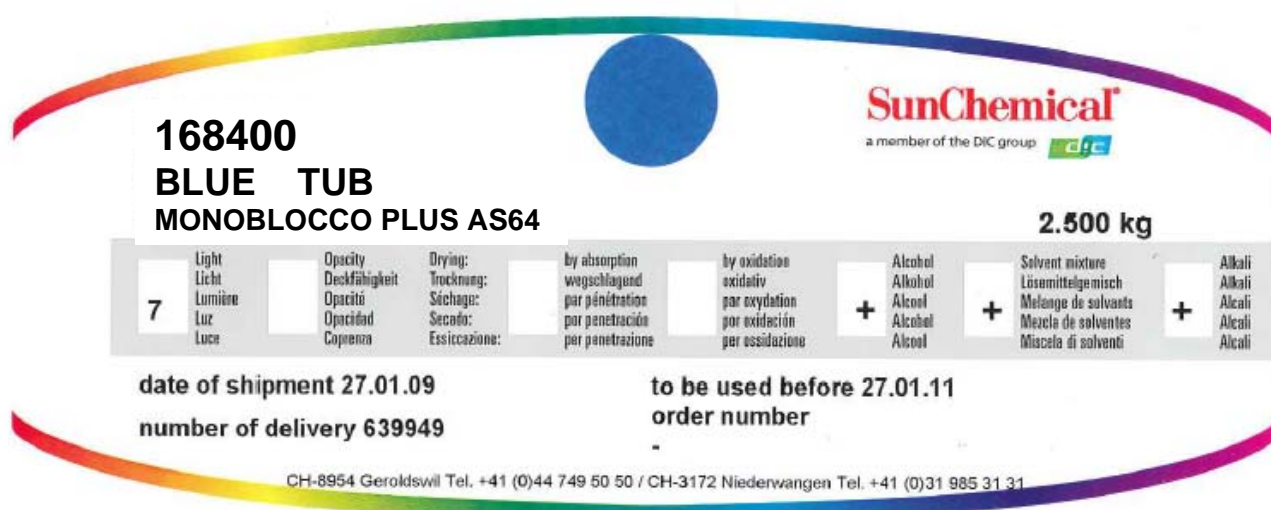

As you probably noticed, we have switched to our new Product labels at the beginning of February 2009. Since then, we have received a lot of feedback, mainly because of the missing Color coding.

Customer Feedback is taken very seriously and based on it, we have made the decision that we will have color coded Labels again in future.

The Label design will remain in the new form (see below) however, the grey bar will be colored to give an indication of the content.

Until we are ready, we will mark the Labels with a color sticker in order to make the inks easier for you to recognise/handle.

We are sorry for the inconveniences caused

Training Courses / Training Kurse

Also in 2009 we will be offering Training courses. Dates for German speaking courses have been set, for English speaking courses please contact Herbert.naef@sunchemical.com

Auch im Jahr 2009 wird Sun Chemical wieder Kurse anbieten:

. TurnKeySolution -- The Upgrade

Our TurnKey solution System, the on-line Color Matching/Color QC System, has been successfully running for more than three years. It has by now become a well established and extremely reliable tool for many users

After the successful Data line expansion in 2008, we have at the end of February 2009 also upgraded the Software to the latest version V 5.1. With that, the TurnKey system is again on the very latest level of Technology.

The Information booklet about the changes and additional features of this new Software Version has been distributed to all users in a separate mail.

For more information about TurnKey Solution please contact Daniel under Daniel.friedrich@sunchemical.com
